SMEUP BSA SRL TERMS AND CONDITIONS						

1. End-User License Agreement (EULA)

DEFINITIONS

“Contract”, as referred to herein, shall mean the agreement in effect between the Parties, consisting of the “End-User License Agreement”, the “General Terms and Conditions” and any additional documents agreed upon and signed by the Parties.

In the event of any discrepancy or inconsistency between the contractual documents, the following order of prevalence shall apply:

- A. Offer signed
- B. End-User License Agreement
- C. General Terms and Conditions of End-User License Agreement

“Manufacturer”, as referred to herein, shall mean SMEUP BSA s.r.l. , in its capacity as Manufacturer of the Program and, as such, Holder of the Industrial and Intellectual Property Rights related to its Products.

“Retailer”, as referred to herein, shall mean any company officially authorized by the Manufacturer to license the Use of the Manufacturer’s Program. The Manufacturer as well may hold the qualification of **“Retailer”**.

“Customer or Licensee”, as referred to herein, shall mean the Party taking advantage of the Service provided by the Program.

“Party or Parties” of the Contract, as referred to herein, shall mean the Manufacturer/Retailer, the Customer and their successors and assigns.

“Program”, as referred to herein, shall identify all standard programs which are part of the generic release (version) intended for more than one Customer. The term **“Customized Program”**, on the other hand, shall identify all programs of which a specially modified version has been implemented at the request of the Customer, according to his specific needs.

“End-User License”, as referred to herein, shall identify the right granted by the Manufacturer/Retailer to use the Program against payment of a one-time fee or lump sum (Open-ended End-User License) or a fee with fixed deadlines (Fixed-Term End-User License), as specified in the End-User License Agreement.

“Nominal User”, as referred to herein, shall mean a person, application or device used to establish one or more connections to the Program that constitutes the object of the End-User License Agreement, or any component thereof.

“Competing User”, as referred to herein, shall mean a person, application or device in connection with the Program that constitutes the object of the End-User License Agreement or any component thereof.

“External User”, as referred to herein, shall exclusively mean a person who is not part of the business organization; by way of example but not limited to: customers and suppliers of the Customer. One-firm agents are also referred to as External Users. Conversely, employees, collaborators and one-firm agents of the Customer are not referred to as External Users.

A User with multiple connections to the Program is treated as a single User (either a nominal or external competitor). The End-User License may be issued according to the number of Competing Users or, alternatively, to the number of Nominal Users and to possible External

Users that will be entitled to use the license, irrespective of the machine/s on which the Program is installed.

The methods of release by number of Nominal or Competing Users are set out in the End-User License Agreement issued by the Manufacturer/Retailer and released to the Customer expressly indicated in the document and/or in the order form.

1. OBJECT OF LICENSE

1.1 The object of the Contract is the assignment to the Customer of non-exclusive and non-transferable use of the Program referred to in the End-User License Agreement.

1.2 The Program ordered by the Customer has been chosen by the Customer according to his needs and the equipment on which it is intended to be used. The Customer is solely responsible for choosing the program and for checking whether the equipment for which the Program is designed is configured accordingly.

1.3 By virtue of the End-User License Agreement, the Customer is entitled to examine and refer to the

technical documentation or any other technical support literature made available by the Manufacturer as regards the programs covered by the End-User License Agreement. Such technical documentation may be released by the Manufacturer/Retailer either on a magnetic media provided with the standard program covered by the End-User License Agreement, or through an internet connection.

1.4 The supply of the Program version in source format is not included. Therefore, if agreed, it shall be mentioned separately in the End-User License Agreement. In addition, The End-User License Agreement does not include any other services such as: arrangement of the operational environment, customized programs, connections to other procedures, data conversion, uploading, etc.

1.5 Maintenance service, support, development and technical advice are not covered by the Contract. Sections and clauses thereto are governed by other documents and conditions.

1.6 Depending on the License obtained by the Manufacturer/Retailer, the Customer is entitled to:

A. Use the licensed Program for the number of either Competing or Nominal Users and for the External Users, if any, as set out in the End-User License Agreement;

B. Copy or translate the Program or a part thereof into an executable format. The Customer is also entitled to:

A. Request, upon written communication confirmed by the Manufacturer/Retailer of the Program, to increase the number of Users (either Nominal or Competing or External), it being understood that such change will entail the payment of an additional fee, to be agreed from time to time, for the adjustment of the End-User License.

B. Use the Program on several machines in such a way as to ensure the high reliability of the IT system, as well as to enable test and development environments;

C. Install the Program components covered by the End-User License Agreement on several machines, that perform the client function in client/server applications such as, but not limited to, the Looc.UP component of the Program. The use of the client component is only and exclusively permitted by Nominal or Competing Users referred to in the End-User License Agreement.

2. DURATION OF LICENSE

2.1 In the event of an open-ended End-User License Agreement, the effective date is the date on which the End-User License Agreement was signed, unless otherwise specified. In the event of a fixed-term End-User License Agreement, the effective date is specified in the License itself.

2.2 Unless otherwise agreed, the fixed-term End-User License Agreement is automatically renewed upon expiration of the period of validity for an equivalent period of time, unless terminated by one of the Parties by Certified Mail or by Registered Letter with acknowledgement of receipt, with prior notice:

- of at least 60 days before the expiration date in the event of the Client being the withdrawing Party;
- of at least 180 days before the expiration date in the event of the Manufacturer/Retailer being the withdrawing Party.

2.3 The Manufacturer/Retailer has the right, at any time, to withdraw from the Contract with prior notice of at least 180 days prior to the effective date, regardless of the reasons.

2.4 Within 30 days from termination of the fixed-term End-User License Agreement, the Customer undertakes to destroy or give back the original copy of the Program, as well as any full or partial copy thereof in any form, including translations, compilations, full and partial copies in the form of amendments, derivative works and updates, or incorporated into other programs.

2.5 The Customer may be required to submit a written confirmation that the obligations set out in Article 2.4. have been fulfilled.

3. PROPERTY OF THE PROGRAM

3.1 The End-User License Agreement is governed by the regulations in force under the Protection of Copyright and Neighbouring Rights (Copyright Law of Italy no. 633 of 22 April 1941, along with its various amendments).

3.2 The Program covered by the End-User License Agreement remains the sole property of the Manufacturer.

3.3 Customized programs made available by the Manufacturer/Retailer according to specific directions from the Customer, may be transferred by the Manufacturer/Retailer to other Customers and included, in whole or in part, in the Manufacturer/Retailer Standard Program, and nothing shall be due to the

Customer, even if made upon request and analysis performed by the Customer himself.

4. RESTRICTIONS ON USE OF THE END-USER LICENSE AGREEMENT

4.1 The Customer is aware that the Program will be working only for the restricted number of Users (either Competing or Nominal or External) listed in the End-User License Agreement.

5. PROHIBITIONS

5.1 The Customer is forbidden from assigning or transferring to third parties the Contract, the End-User License or the Program, as well as any other right or obligation arising under the aforementioned documents, in the absence of a prior written consent by the Manufacturer/Retailer.

5.2 The Customer is forbidden from assigning to third parties sublicenses of the Program.

5.3 The use of the Program by third parties other than the Customer is strictly forbidden, whether for a fee or not, by local and/or remote connection, unless expressly authorized in writing by the Manufacturer/Retailer.

6. OBLIGATIONS

6.1 The Customer will arrange, at his own expense, machines, terminals, rooms, as well as electrical systems, cables and lines, in compliance with current technical standards.

6.2 The Customer is responsible for selecting and using the Program, as well as for the regular updating of the operating systems, in order for the Program to work properly.

6.3 The Customer declares he is aware of and agrees with the hardware and software prerequisites necessary for the Program to work properly.

6.4 The Customer remains solely liable for the technical and operational training of the staff responsible for using the Program.

6.5 It is the Customer's sole responsibility to put in place controls on data, processing and printouts resulting from the use of the Program.

6.6 It is the Customer's sole responsibility to:

- A. determine and take the necessary security procedures governing data access and privacy;
- B. arrange for the necessary periodic backup copies;
- C. update backups of customized programs after any changes thereto;
- D. keep updated his own copy of the Program.

6.7 The Customer undertakes to take the necessary steps and measures so that the persons authorized to access the Program commit themselves:

- A. not to transfer the Program to third parties in the absence of a prior written agreement by the Manufacturer/Retailer;
- B. not to make the Program available to third parties, unless they have been authorized by the Customer to have access to the Program for purposes strictly related to the licensed use of the Program;
- C. to reproduce and include any information related to copyright and any claim related to property rights in each licensed copy of the Program;
- D. to make sure that the program has been entirely erased prior to alienating or allocating any physical support of the program.

6.8 Failures or malfunctions of the Program, if any, must be reported to the Manufacturer/Retailer by Certified Mail or by Registered Letter with acknowledgement of receipt within 30 days from discovery.

6.9 Any change in the identification data of the Customer with which the End-User License was issued, in particular, any change in the corporate name, place of business or VAT number, must be reported to the Manufacturer/Retailer by Certified Mail or by Registered Letter with acknowledgement of receipt by no later than 8 days after the change occurred.

6.10 As of now, the Customer authorizes the Manufacturer/Retailer to access the system and undertakes to provide any data necessary to verify the Program under the End-User License, in particular, any information needed to verify the number of users (either Competing or Nominal or External) entitled to use the Program.

6.11 The Customer expressly entitles the Manufacturer/Retailer to use his name or his own brand and/or logo, as a reference on advertising material, either printed or posted on his website, unless

otherwise agreed.

7. WARRANTY ON THE PROGRAM

7.1 The Program is provided according to the latest release version available at the time of installation.

7.2 Without prejudice to the extent required by law, the Manufacturer/Retailer is unable to assure that the functions contained in the Program will meet the Customer's needs or that the Program's operations will be promptly fixed.

7.3 The warranty on the Standard Program under the End-User License involves providing a new release of the Program in order to prevent defects or malfunctions of the Program, provided that such defects are referable to the functions envisaged and outlined in the commercial descriptions of the application.

7.4 Time and methods used to remove defects shall be established by the Manufacturer/Retailer, depending on the type of malfunction and the problem reported.

7.5 The Program under the End-User License is licensed for evaluation or demonstration purposes and is provided without any warranty.

7.6 In the absence of a Maintenance Agreement for Application Programs, the warranty on the licensed standard Program expires at the release of a new version by the Manufacturer/Retailer. Should a new version be released within the minimum warranty term required by law, the Manufacturer/Retailer undertakes to provide the new version, in addition to removing the defect, without this entailing the obligation to sign a Maintenance Agreement for Application Programs.

7.7 If a Maintenance Agreement for Application Programs signed by the Customer exists, the warranty is extended for the entire lifetime of the Maintenance Agreement for Application Programs.

7.8 The warranty becomes ineffective in the event of hardware and/or software changes not permitted by the Manufacturer/Retailer that may affect the smooth operation of the Program.

7.9 The Manufacturer/Retailer shall not undertake any obligation and shall not provide any further warranty other than the one covered by this section.

8. LIMITATIONS OF MANUFACTURER'S/RETAILER'S LIABILITY

8.1 Unless otherwise provided by Law, the Customer agrees that the maximum limitation of Manufacturer's liability, or of Retailer's liability - in the event of the latter being a legal person different from the Manufacturer - for assessed damage of any kind or in any capacity caused by or connected with a malfunction of the Program, should be established as follows:

A. for the Fixed-Term End-User License, the refund of the amount paid by the Customer as a fee for the application form containing the programs that caused the damage, in addition to a fee due for the average number of Users of the Customer who actually use the application form that caused the damage, up to 10 Users;

B. for the Open-Ended End-User License, the refund of the amount paid by the Customer as a fee on a quarterly basis for the application form containing the programs that caused the damage, in addition to a quarterly fee for the average number of Users of the Customer who actually use the application form that caused the damage, up to 10 Users.

The right to compensation for any greater damage remains excluded.

8.2 In no event shall the Manufacturer/Retailer be liable for direct or indirect damages of any nature whatsoever that the Customer or third parties may suffer, including those arising from use or failure to use the Program or caused by errors in the Program.

8.3 Any indication supplied by the operating staff responsible for providing the End-User License shall not relieve the Customer of the sole responsibility of protecting his own data by taking appropriate security measures.

9. PAYMENT OF FEES

9.1 Payment terms and conditions are set out in the End-User License Form.

9.2 In the event of non-payment or late payment, default interest shall be due in the amount established by Legislative Decree n. 231/02.

9.3 Longer delays of more than 30 days might imply termination of the Contract or the suspension of

Service. The decision rests on the discretion of the Manufacturer/Retailer.

9.4 Should the Customer dispute, in whole or in part, an invoice due on the deadline and related to this Contract, he shall be required to inform the Manufacturer/Retailer in writing by Certified Mail or by Registered Letter with acknowledgement of receipt, thereby giving reasons for dispute, within 20 days from invoice receipt. After the expiration of the deadline, the invoice is deemed to be fully accepted and any later claim shall have no effect.

The communication shall include the following details:

- A. date and number of disputed invoice;
- B. disputed amount;
- C. reason for dispute;
- D. supporting documents, if any.

9.5 In the event of a Fixed-Term End-User License, the amounts are understood to include the Maintenance fee for Application Programs. At the beginning of each calendar year, the fee established in the Contract may automatically undergo an increase based on the ISTAT FOI cost of living index and the amount will be rounded up to the next integer.

9.6 The Manufacturer/Retailer, irrespective of the ISTAT FOI increase, shall be entitled to report the change in the Fixed-Term End-User License fee by written 90-day notice and without prejudice to the effective date from the calendar year. In this case, the Customer shall be entitled to withdraw from the Contract with a notice period of at least 60 days.

10. TERMINATION

10.1 The Contract shall be treated as terminated in the following cases:

- A. breach by the Customer of the obligations set forth in sections 5.1, 5.2, 5.3;
- B. breach by the Customer of the obligations set forth in sections 6.2, 6.3, 6.4, 6.5, 6.7;
- C. non-payment, incorrect or partial payment of fees due on account of the End-User License;
- D. tampering with the Program by unauthorized staff;
- E. in all cases where any other use contrary to the Law may be recognised;
- F. breach of the article under section 14.5.

10.2 Should any of the above circumstances occur, the Manufacturer/Retailer shall have the faculty to declare his intention to make use of the foregoing clause by Certified Mail or by Registered Letter with acknowledgement of receipt. The termination shall be effective on receipt of the above communication by the Customer.

10.3 In the event of termination, it being understood that the Manufacturer/Retailer is entitled to be indemnified for damage, no compensation is due to the Customer.

10.4 The Customer shall destroy all copies of the Program and all documents thereof within 30 days from the termination of the Contract. To this aim, the Customer entitles the staff of the Manufacturer/Retailer to access the premises and buildings of his Company to make sure that the cancellation has taken place or to perform it in person.

11. PRIVACY

11.1 The Manufacturer/Retailer undertakes not to disclose any information connected with the Customer's activity that he might become acquainted with during the performance of the contract and shall require from his staff the same commitment to be fulfilled accordingly. Concepts, ideas, skills and technical expertise connected with the tasks performed by the staff of the Supplier and related to the services covered by this Contract may be used by both Parties.

11.2 Should the above ideas, skills and technical expertise develop into inventions, discoveries or improvements whatsoever, they shall remain the sole property of the Manufacturer/Retailer, who shall be the owner of the exclusive right of exploitation.

11.3 It is the Customer's sole responsibility to implement the necessary measures in compliance with the provisions of the Law on data protection and access to information.

11.4 A separated non-disclosure agreement shall form an integral part of the Contract that the Parties undertake to sign, along with the other contractual documents.

12. FORCE MAJEURE

12.1 Neither Party shall in no way be liable for breach of the Contract in the event of force majeure, i.e. out-of-control events occurring under totally unpredictable circumstances, such as, but not limited to, statutory provisions, regulations and other measures taken by Public Authorities, wars, embargos, explosions earthquakes, floods, national strikes. 13.1 The Contract is governed by the Italian law.

13.2 Any dispute arising in connection with the interpretation, performance and termination of this Contract shall be submitted to and settled by the Court of Brescia.
